DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "15" has been used to designate both stopping pin and flat area. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: stopping pin 15.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Lecomte (US Patent 3,589,069).

Regarding claim 1, Lecomte discloses a method of opening a vehicle door in a doorway of a vehicle body, the method comprising: rotating such vehicle door in a horizontal plane of motion until such vehicle door substantially clears such vehicle body (Fig. 2, step I to II- although step I to II does not show pivoting motion since Step V shows pivoting motion, it is inherent to the motion between step I and II); and then rotating such vehicle door in a vertical plane of motion until such vehicle door substantially clears such door way (Fig. 2 step II to III).

Regarding claim 2, Lecomte discloses the method of claim 1, further comprising: providing a chassis mounting plate (5) securely fastened to such vehicle frame (6); providing a swing arm (31,29,24) securely fastened to such vehicle door (1 at 32); providing a bi-directional rotation mechanism allowing motion of the door in a first horizontal plane and a second vertical plane (Fig. 2).

Regarding claim 3, Lecomte discloses the method of claim 2, wherein the bi-directional rotation mechanism prevents the motion of the door in the second vertical plane when the door has not fully completed motion in the first horizontal plane (38).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lecomte.

Regarding claim 4-6, Lecomte discloses a vehicle door hinge that includes a bi-directional rotation mechanism. Lecomte does not disclose that the door is retro-fitted on a vehicle frame. However, Lecomte discloses that the hinge is connected to the door then connected to the door frame and then the biasing means attached. The Examiner takes Official Notice that it would have been obvious to retrofit the door of Lecomte to another vehicle door frame because the hinge is connected to the frame by bolts 8.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art discloses other bi-directional hinges for doors.
